

A waterfront, two-bedroom apartment with spectacular views of Sydney Harbour was transformed to accommodate the new owners' lifestyle and stunning artworks. A neutral palette with high-end stone finishes creates an opulent environment with the art and views taking centre stage. The extensive use of mirrors has opened up the spaces, reflecting the light and views. Portal frames have been incorporated to create a division between public and private zones.

A beautiful Christopher Boots *Prometheus II* pendant creates the sense of arrival in the apartment and draws the eye to the entry table which also acts as a dining area.

This is all a perfect backdrop for the owners' wonderful contemporary art collection. The dining room Artwork is 2019 *floating fables* by artist Tom Polo. The 3-panel artwork near the entry is 2021 *Burger with the Light* by artist Jonny Niesche.
