

Kardinia Road House 1

Clifton Gardens | Renovation | 2015

Perched high on a hill in Clifton Gardens, with sweeping views over Sydney Harbour, this modest 1950's red brick house has been transformed into a contemporary family home with a relaxed casual feel.

The exteriors are a combination of painted rendered walls, stained timber cladding and natural sandstone cladding. The interiors are warm and inviting and feature dark stained oak floors, off white walls and wallpaper.
